

OUR APPROACH:

Case Study: Transportation Logistics Company

Rethink

National transportation logistics company with several divisions and 20 plus locations including: precious cargo, freight brokerage, LTL, shipping, domestic and global logistics, relocation services, warehousing. Company had a cash shortfall and a default with its senior lender on financial covenants.

React

Aurora was named the Financial Advisor. We completed cost analysis and an evaluation of each division to determine drivers of profitability and liquidity. Restructured continuing operations including consolidating and streamlining of administrative functions.

Results

The Company was brought into compliance with senior debt covenants. Unprofitable locations were closed. Operations were consolidated into the home office. Functional responsibilities by position were realigned. Company is profitable and in operation today.
