

OUR APPROACH:

Case Study:

Transportation Logistics Company

Rethink

National transportation logistics company with several divisions and 20 plus locations including: precious cargo, freight brokerage, LTL, shipping, domestic and global logistics, relocation services, warehouse. Company had a cash shortfall and default on bank covenants.

React

Aurora was named the Financial Advisor. We completed cost analysis of each division to determine profitability and evaluated each division. Restructured continuing operations including operations of administrative functions.

Results

The Company was in compliance with senior debt covenants. Closed unprofitable locations and consolidated operations into home office while also realigning job duties. Company is profitable and in operation today.
